THE EUROPEAN COMMISSION,

In addition, Regulation (EU) No 1178/2011 includes provisions on the certification of approved training organisations and of operators of flight simulation training devices used for pilot training, testing and checking.

(2) Article 5 of Regulation (EC) No 216/2008 dealing with airworthiness was extended to include the elements of operational suitability evaluation into the implementing rules for type-certification.

(3) The European Aviation Safety Agency (the 'Agency') found that it was necessary to amend Commission Regulation (EU) No 748/2012⁽³⁾ in order to allow the Agency to approve operational suitability data as part of the type-certification process.

(5) The requirements related to the establishment of flight crew type rating training courses refer to the operational suitability data, however where the operational suitability data is not available there should be a general provision as well as transitional measures.

(6) The Agency prepared draft implementing rules on the concept of operational suitability data and submitted them as an opinion⁽⁴⁾ to the Commission in accordance with Article 19(1) of Regulation (EC) No 216/2008.

(7) Regulation (EU) No 1178/2011 should therefore be amended accordingly.
